Dear Sirs,

My name:.....

My property address:.....

Pursuant to the Agreed Principles of Land Access signed by yourselves on 28th March, 2014, I note that you have agreed that you will *“not enter onto a Landholder’s property to conduct coal seam gas drilling operations for exploration and production purposes where that Landholder has clearly expressed the view that Operations on their property would be unwelcome”*.

Accordingly I advise that Operations on the above property are unwelcome and I direct that your Company, its agents, representatives or assigns not enter onto my property for the purpose of CSG Operations.

I also direct that your Company, its agents, representatives or assigns not contact me in the future, other than perhaps a simple acknowledgement of receipt of this letter, seeking access to my property.

.....
Signed.
