

GAS WATCH 19.

A SYDNEY GAS FIELD IN BROKE/BULGA CAN STOP YOU BORROWING ANY MONEY.

A resident of Inlet Road, Bulga (not too far from the drilling site) tells us that she approached her Bank to borrow funds to buy an investment property, using her Inlet Road property as security by way of mortgage.

The Bank knocked her back saying that the Bank wouldn't accept the Inlet Road property as security "because of its location". The Bank knows.

It has started. The devaluation of our properties, and only one drilling rig is on site, and only one core hole has been approved.

As Jurd's Real Estate has said "the effect on property prices could be devastating, if the impact in the vicinity is severe it could result in property in that vicinity becoming unsaleable."

We must be united and say "NO TO SYDNEY GAS" if they knock on your door wanting access to your property. No matter what line they try to spin you, you do not have to let them on for any reason, and nothing they tell you is confidential unless you have actually signed an access and compensation agreement.

We do hear, and don't know if its factual or not because Sydney Gas won't tell us, that two more landowners may have signed access agreements, one in Howes Valley and one in Singleton near the Broke Road. Unfortunately Sydney Gas maintains its veil of secrecy.

We also hear that a local landowner has a handshake agreement with Sydney Gas that if they want to come onto his property, Sydney Gas will pay him \$1,000 per week per well they drill. How can they offer that when they offer others \$50 per week, not even indexed.

Can you trust this company when they do this sort of thing.

A united community stopped Sydney Gas exploration in the Wyong Shire, and we can do it here.

Consider the effect on our valley and our community if asked to sign up with Sydney Gas.

**Report all Sydney Gas contacts to HB GAG.
Check out the HB GAG website for more information.**
